

International Awareness & Involvement

PP & T Supply Drive (Panties, Pads & Tampons)

Ever thought about how uncomfortable life is during your menstrual cycle?

Try to imagine...It's your time of the month and you don't have panties or any adequate sanitary protection.

Well for some, this is the case...

FACT:

- 1 in 10 school-age African girls do not attend school during menstruation or drop out at puberty because of the lack of clean and private sanitation facilities in schools.
- If a girl has no access to protective materials or if the material she has are unreliable and cause embarrassment, she may be forced to stay at home while menstruating. This absence of approximately 4 days every 4 weeks may result in the girl missing 10 to 20 percent of her school days.

Please bring items to October
Sorority Meeting

Only new & unopened packages will be accepted.
